I am not sure what this WAF is doing. I show that we had already processed a WAF for this site for \$10k last year so this is not an increase. Also, in the funding section, you have the same funding info on both the decrease and increase lines which is not correct. Can you clarify what you are trying to accomplish with this WAF? If I get a better understanding of that, I can tell you what would need to be fixed.
